

Tutorial 4

Bridge Table Concepts

Discuss the following questions (based on the Product-Sales Case Study):

1. What is **Bridge Table**? Why is a Bridge Table used? When is a Bridge table used? Can ProductDIM be a Bridge Table?
2. Discuss the differences between the **three Snowflake Schemas** in the Product Sales case study.
3. What is a **Temporal Dimension**? Why is the Bridge Table a Temporal Dimension?
4. If a **Weight Factor** attribute is used in this case study, what does the Weight Factor attribute mean? In which dimension, the Weigh Factor attribute is going to be placed?
